#### 7 Post Balance Sheet Event

Since 31 December 2019, the spread of Covid-19 has severely impacted many local economies around the globe. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced added volatility and a general weakening. Governments have intervened with monetary and fiscal policy to add stability.

The Committee have determined that these events are non-adjusting subsequent events, and as such the financial position and results for the year ended 31 December 2021 have not been adjusted to reflect their impact. The duration and impact of the virus remains unclear currently and it isn't possible to reliably estimate the severity of these consequences, as well as their impact on the financial position and results of the company for future periods.
